

CREATIVE ARTS

ABOUT US

TRANSFORMING YOUR IMAGINATION INTO A REALITY

Our wonderful journey started 12 years ago when our founder Mr. Ravi Patel established Creative Arts.

Creative Arts is an integrated one stop solution provider for water jet cutting and laser cutting. Be it any material or design, we are confident that we can create it. In Ahmedabad, we were the pioneers in this sector. Over the years we have catered to some of the most reputed clients like IIT Gandhinagar, GSC Bank (Naranpura), Civil Hospital (Ahmedabad) etc.

We cater to B2B as well as B2C clients :

B2B – We manufacture and perform industry specific jobs that are designed and created as per the specifications our clients. We cater to various industries for B2B jobs. We understand their needs in detail and deliver results as per their benchmarks.

B2C – We offer a range of supreme quality finished products such as door grills, name plates and wall hooks. These products are also customized as the requirements of our clients.

We are equipped with latest machinery and modern infrastructure and skilled manpower that enable us to produce quality products. Our commitment to customer service is unparalleled and has gained us the trust and respect of our clients.

At Creative Arts - You design, we create.

OUR ETHOS

VISION

Our vision is to become a leader in sheet-metal industry through constant innovation and best-in-class services and be renowned for our creativity and craftsmanship.

MISSION

- To deliver quality products on time at best possible rates.
- To minimize wastage, achieve operational excellence and enhance production 3 times by 2022.
- To perform consistently and exceed our customers' expectations.

VALUES

- We believe in upgraded technology and empowered teamwork.
- We believe in innovation and creativity.
- We believe in consistent quality.
- We believe in passion and hard work.
- We are CREATIVE ARTS. We believe in delivering creativity at its best.

OUR DIRECTOR

Mr. Ravi Patel is the founder of Creative Arts. He is a visionary entrepreneur with profound expertise and technical know-how. He believes that the best marketing strategy is to deliver finest quality products. That's why at Creative Arts, quality is the most crucial thing. He has endeavoured to create an organization that strives for customer satisfaction rather than profit maximization.

Mr. Ravi Patel is the leading force behind the success of Creative Arts. His everlasting passion, commitment and dedication is an inspiration, not only to his team but also for other entrepreneurs.

OUR FINISHED PRODUCT

DOOR GRILL

We manufacture ready to install door grills that are of premium quality and feature various attractive designs. These door grills are quite dependable and made of superior materials.

MR. RAVI

NAME PLATE

We present our customers with an extensive range of name plates and signages which can be customised as per your requirements. These name plate and signage can be ordered online. We also make name plates and signages with different materials and lighting.

WALL HOOK

We also manufacture wall hooks that are available in multiple sizes as per the usage requirements. These wall hooks are strong and reliable. Our customers can purchase them online as well.

OUR SERVICES

LASER CUTTING

Laser cutting is a technology that uses a laser rays to cut solid materials like stainless steel and mild steel. Capacity for stainless steel is 4 mm to 6 mm and for mild steel is 10 mm.

It works by directing the output of a high-power laser most commonly through optics. The laser optics and CNC (computer numerical control) are used to direct the material or the laser beam generated. Laser cutting is widely used by architects and interior designers for both commercial and residential projects. This technology is also widely used by manufacturers across sectors.

OUR SERVICES

WATER JET CUTTING

Water Jet cutting is a term used to describe the process of cutting a wide variety of materials using a very high-pressure jet of water, or a mixture of water and an abrasive substance.

The term abrasive jet refers specifically to the use of a mixture of water and abrasive to cut hard materials such as metal or granite, while the terms pure waterjet and water-only cutting refer to water-jet cutting without the use of abrasives, often used for softer materials such as wood or rubber. This technology is widely used for artistic creations.

Our table size is 2000 x 3000. And we have the cutting capacity of 1 to 100 mm.

TESTIMONIALS

I am really impressed with the work of Creative Arts. They understand the minutest detail of a design and produce a high quality product. Also, they are very professional and timely in their services. Would love to work with them in future as well. - Y P Design, Ahmedabad

I needed a creative, marvellous looking name plate for my house. I contacted Creative Arts and I got what I wanted. The name plate is stunning and the whole process of working with them was really smooth. I will definitely recommend them. - Mr. Chirag Shah

Creative Arts has always been our go to company when it comes to any kind of industrial job work. Their charges are quite reasonable and also they offer fast delivery. One more thing that I really appreciate is there's only 11% to 23% wastage which is great as per industry standards. - Sakrat Texfab Pvt. Ltd.
